

Private Peaceful

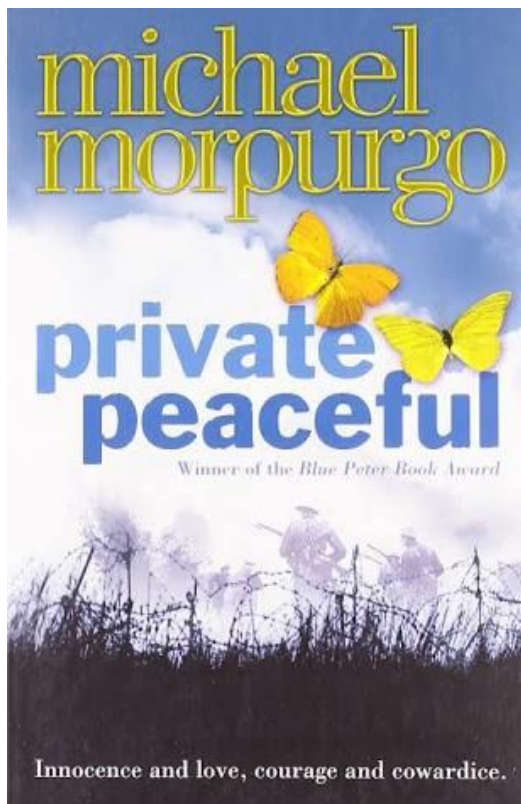

By Michael Morpurgo

The book Private Peaceful is a great book because it makes you feel lots of emotions. Once you know the characters you get attached to them and feel the emotions that they are feeling..at the sad bits you just want to hug them and help them get through it.

Private Peaceful is a book about Thomas Peaceful a 16 year old boy living in the First World War but Thomas lives with a terrible sin that no one knows....yet. Then Charlie,Thomas's older brother, decides to to go war and Thomas goes with him to protect Charlie but not everything goes to plan.

Personally I love the book because of the characters and the plots and you never expect them to happen. I also like how the book changes settings like it starts at their house but then half way in the book it changes to the trenches in the war.

I would give this book a 7 out of 10 because in some bits it's not really for younger kids but the other bits are really exciting and sad so overall I think it's a really good book.
