

Hedley Hopkins Did A Dare

Paul Jennings

Hedley Hopkins is a boy who moves from England to Australia. The first chapter is good, but when the book moves on it becomes great. The first time I saw the book I read the blurb and it said it was for grade 5 and 6 so I waited another year so I could read it.

What happens is for you to find outbut it's an adventure and all I can tell you is that when you open it, you can't put it down ... it's a very good book.

When Hedley Hopkins moves to Australia he has no plans and no friends and because he comes from England everyone calls him a pommie. Hedley doesn't mind though. His life is one big adventure.

I relate to him because he's got a good sense of humour.

Each chapter in the story flows really well, whereas in some books I've read they go to a completely different part.

I suggest reading it except you have to be grade 5 or 6 unfortunately, but when you are I think you'll find hilarious.

I can't tell my favourite bit ... because I don't have one ... the whole book is awesome.

I suggest reading it.
