

Demon Dentist

By David Walliams

One of my favourite books is Demon Dentist by David Walliams.

The reason I like it is that it is tense but still has a sense of humour.

One of my favourite parts of the book is when Alfie runs into Raj on a really spooky night. My favourite character in the book is Raj.

Raj is a large man from India who is really nice and loves lollies.

Raj is in nearly all of David Walliams books. Demon Dentist is about a boy named Alfie who HATES going to the dentist so has teeth as black as hell. He lives with his dad who is very sick from working in a coal mine. Alfie has to take care of his dad. One day at Alfie's school a dentist came. Alfie thought she looked weird. She had white-blonde hair arranged like a prime minister would have it, pale skin and a pointy nose.

WHO WAS SHE AND WHAT DID SHE WANT?!?

You will have to read it to find out!
