

Book review: 65 Storey Treehouse

The 65 Story Treehouse is about Andy and Terry going time travelling because Terry did not buy a building permit and Inspector Bubblewrap was coming to check. Inspector Bubblewrap did not like any of it so he said No and Terry said he had a time machine so Andy and Terry hopped in and Inspector Bubblewrap jumped in and pressed the time travel button and went back really far to when life was being made.

I like this book because Terry is so funny and Andy is such a bummer and stuff in their tree house is cool!! They have a birthday room and a un birthday room which makes you get young and a quick sand pit and an ant farm.
