

Ratburger

By David Walliams

This book is amazing especially because it's different to every other book I read in my lifetime and it is really funny.

Main Points, Characters and Setting:

Gingernut is a hamster owned by a girl called Zoe.

Zoe is the daughter that owns a Hamster and a rat.

Sheila is terrible stepmother.

Armitage is a rat that is a very skilled one.

Burt is a burger man that makes rat patties.

Dad, Zoe's dad.

Tina, The local bully.

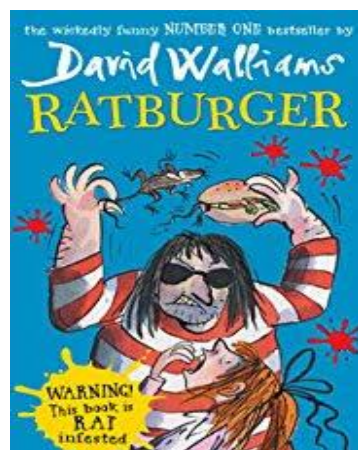

Raj, a news agent.

Mr Grave is the principal.

Miss Midge is a small teacher.

It's set in a School (don't know what it's called), a House and a Rat Pulverising Machine Shed.

The main idea is that Zoe's pet rat, Armitage gets found so a burger man steals it to turn into a burger patty. Zoe has to go into the pub to get her dad and they both go over to the Rat Pulverising Machine shed and try save Armitage out of the thousand rats that were there. Somehow Armitage was saved and they lived the rest of their lives together and teamed up with the bully to make a performance. Next thing you know a professional stunt rat called *"The Amazing Armitage"* goes on the stage.
