

## **Koala by Steve Parish**

Koalas are a living thing.

I think Koalas are very cute and fluffy but they sleep through the day.

People these days don't realise that Koalas are there.

- ❖ They have a pouch for their babies.
- ❖ When they are one or two years old they climb on their mothers back.
- ❖ The family stay in that tree until they die.
- ❖ The males go to find a female to breed.

Koalas are fluffy and cute everyone should get a Koala.
